

## Puppy Vaccination Schedule

The first thing to know is that there is not just one puppy vaccination schedule for all dogs. Factors such as which part of the country you live in, and your dog's individual risk factors will come into play. Some dogs do not need every vaccine. This decision is between you and your veterinarian. Always discuss puppy vaccinations at your regularly scheduled appointments.

That said, here is a generally accepted guideline of the puppy vaccination schedule for the first year.

### **Puppy's Age Recommended Vaccinations**

6 — 8 weeks	Distemper, parainfluenza, Bordetella
10 — 12 weeks	DHPP (vaccines for distemper, adenovirus [hepatitis], parainfluenza, and parvovirus), Coronavirus, Leptospirosis, Bordetella, Lyme disease
12 — 24 weeks	Rabies
14 — 16 weeks	DHPP, Coronavirus, Lyme disease, Leptospirosis
12 — 16 months	Rabies, DHPP, Coronavirus, Leptospirosis, Bordetella, Lyme disease
Every 1 — 2 years	DHPP, Coronavirus, Leptospirosis, Bordetella, Lyme disease
Every 1 — 3 years	Rabies (as required by law)
